BARGAINS IN QUALITY TREES
AND PLANTS FOR THE ORCHARD,
FRUIT GARDEN AND LAWN.

It Is Not a Home Until It Is Planted

*Growers of
Fruit and Ornamental Trees,
Shrubs, Small Fruits,
Vines, Etc.*

Troy, Ohio

GREETINGS—

It is a pleasure to send this catalog to you. It fully describes the best varieties of Fruits and Ornaments.

Troy Nurseries trees and plants are full of vigorous life and vitality and will quickly demonstrate their superior worth in your orchard, garden or lawn.

Intrust your order to us and we will select for you the very best that can be grown, and pack it so securely that it will reach you in prime condition for transplanting.

HOW TO ORDER

Make out your order on the inclosed order blank and mail it to us in our return envelope.

DO THIS AND WE GUARANTEE

to ship you clean, healthy, vigorous stock, stored full of reserve vitality, which, with the careful attention you will give it, will insure you a successful planting.

FURTHER,

if for any reason you are not entirely satisfied with any tree or plant purchased, write us immediately and the matter will be adjusted to your entire satisfaction.

PRICES quoted are F. O. B. Troy, Ohio. Small orders can be sent by mail. If you order stock shipped by mail, add 10 cents to each dollar's worth of stock purchased, which will pay postage and the other extra expense. Anything that is four feet tall cannot go by mail.

REMITTANCES—Charge accounts increase operating expenses, and this in turn increases the cost of stock. Therefore, remittances should accompany the order. Remittances should be made by Draft, Money Order or Check. C. O. D. orders will be accepted.

Apples - the King of Fruits

Apples are not a luxury, they are a necessity, one of the most nourishing and healthful of all foods. Plant an orchard this year and have your own supply the year round of delicious, high flavored, finest quality fruits. Coming right from your own orchard they are richer and have a more tempting flavor, because they can be left on the trees until fully developed.

Our trees will grow and produce abundantly, because they are full of vigorous life and vitality.

PRICES OF ALL APPLE TREES

Great big thrifty two year old trees, 5 to 7 feet high, 70 cents each, \$6.50 per 10, \$50.00 per 100.

BALDWIN—Large, bright red, with crisp, juicy, slightly tart, richly flavored flesh. Should be in every orchard. Winter.

BELLEFLOWER—A good yellow winter variety.

DELICIOUS—Large, uniform, oblong, fine grained, mild and melting, with a most delicious aroma. Winter.

DUCHESS—Roundish, streaked red and yellow, flesh white, juicy, sprightly flavored. Fine fall cooking variety.

EARLY HARVEST—Pale yellow, fine flavored, early summer apple

GRIMES GOLDEN—Rich golden yellow; fall variety so highly prized by all.

JONATHAN—Brilliant red, flesh white, fine grained, juicy, tender and delightfully flavored. None better through November and December.

MAIDEN BLUSH—The best late summer and early fall cooking apple. Yellow, with blush cheek.

NORTHERN SPY—Large striped, mild sub-acid and tender, flavor very rich. Winter.

NORTH WESTERN GREENING—Large yellow; late keeper, holding well in common storage until spring.

BAMBO—This old favorite is just as worthy of a place in your orchard today as in the orchards of fifty years ago. Medium size, striped; fall.

IDEAL HOME APPLE ORCHARD COLLECTION

12 great big 5 to 7 foot Apple trees for \$6.69

The following trees come direct from our general stock and are of the same high quality.

2 Baldwin,	2 Jonathan,
2 Delicious,	2 Stayman's,
2 Grimes Golden,	2 Yellow Transparent.

One of each of the above trees, six in all for \$3.59.

ROME BEAUTY—Large yellow and red, tender, juicy, excellent late keeper.

STAYMAN'S WINESAP—Dark red, one of the best in flavor, appearance and juiciness. Winter.

TALMAN SWEET—Yellow and red. One of the best for baking.

WEALTHY—Deep red, flesh white, juicy and vinous. Late fall.

WINESAP—Deep red, productive, excellent quality, crisp and juicy, sub-acid. Winter.

YELLOW TRANSPARENT—The best early summer apple. White, tender, juicy, sprightly, sub-acid. Bears very young.

Remember planting season is short. Buy early so we can be ready to ship your order when you should have it.

EXQUISITELY FLAVORED PEACHES

Plant your own peaches and have sun ripened fruit that can be picked and used after it has developed its most delicious flavor right on the tree. Troy Nurseries Peach trees will produce great big crops of nature's finest gifts to mankind.

PRICES OF ALL PEACHES

Stocky well rooted 4 to 5 foot trees at 40 cents each, \$3.50 per 10, \$30.00 per 100.

BANNER—Large deep yellow with crimson cheek. Flesh yellow, excellent quality, rich, firm. Late September.

BELLE OF GEORGIA—Very large, skin white with red cheek; flesh white, firm, juicy. Early September.

CARMEN—Pale yellow with deep blush. Tender and juicy, fine flavor. The best August peach.

CHAMPION—Cream white, red cheek; sweet, rich, juicy. August.

CRAWFORD EARLY—A magnificent yellow and red peach. Flesh deep yellow. Early September.

CRAWFORD LATE—A superb late yellow peach. Late September.

EARLY ELBERTA—Ripens about a week earlier than Elberta. Of equal quality and size.

ELBERTA—The leading market variety. Large yellow, with red cheek. Flesh yellow, firm, juicy, of high quality. Very prolific. September.

GOLD DROP—Medium size, very productive. Has transparent, golden appearance. A good variety for the home orchard. Late September.

J. H. HALE—Beautiful golden yellow with deep carmine blush. Flesh firm and of best quality. September.

LEMON FREE—Lemon shaped and colored. Large, immensely productive, one of the best for canning. Late September.

ROCHESTER—A very early yellow freestone of extraordinary sweetness. Fruit large yellow, sweet, juicy, and of delicious flavor. Early August.

MONEY SAVING PEACH COLLECTION

10 Thrifty, Well Rooted, Vigorous 4 to 5 foot Peach

Trees for only \$3.24

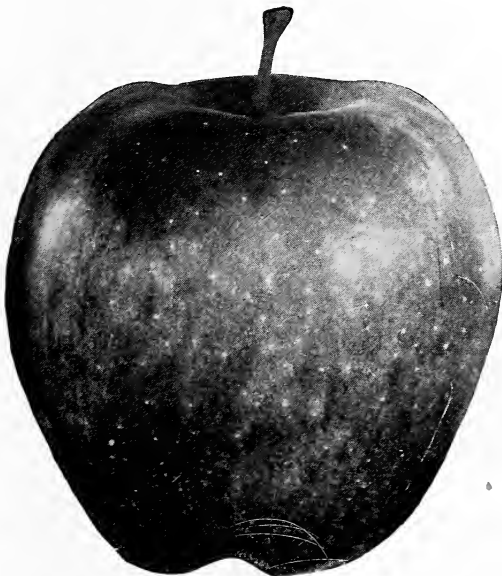

2 Belle of Georgia, 2 Champion,

2 Elberta. 2 J. H. Hale,

2 Lemon Free,

One each of the above trees, five in all, for \$1.64

A well taken care of orchard will pay big dividends in health and wealth.

WHY NOT BUY MORE FRUIT TREES

How many dollars a year do you spend for fruit—either fresh or in cans?

Did you ever stop to think that one-tenth that sum invested in a few trees would give you many times the amount of fruit you buy—and keep on giving it to you, year after year?

If you have ground enough for a fair-sized garden, you have room enough for fruit. A single tree will yield from 50 to 150 quarts of fruit. We have seen 20 16-quart baskets taken from a single tree, under regular commercial culture. A good young Apple tree will give you from two to four barrels of fruit.

Fruit trees require so little care as compared with vegetables that your whole home orchard will not take many hours work during the entire year.

You can grow as fine peaches and apples as sold anywhere if you plant the right kind of trees.

**WE GUARANTEE OURS TO BE THE BEST
THAT CAN BE PRODUCED**

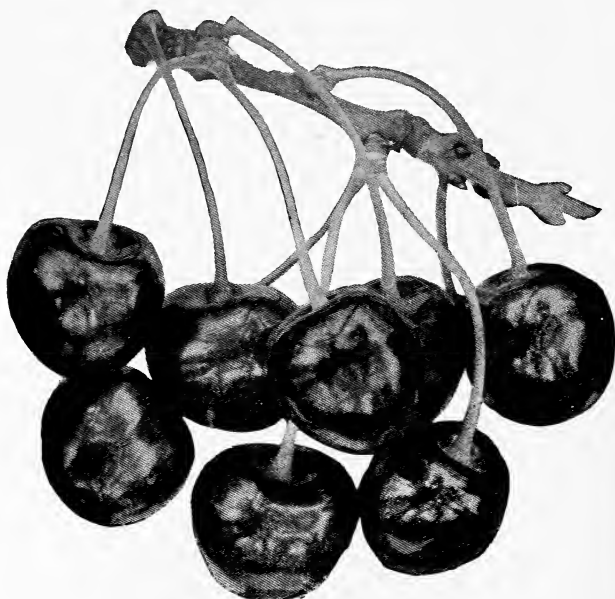

There is hardly a home in the country that cannot select something from this Catalog and at an expense not to be considered when compared with the pleasure, satisfaction and profit that will follow.

CHOICE CHERRY TREES

A few trees will produce an abundance of the finest of fruits every year. Our Cherry Trees will grow for you. They are well rooted, clean bodied and have well branched tops.

Buy your Cherry Trees of The Troy Nurseries and get superior stock.

Heavy, 4 to 6 foot, two year trees, at 90 cents each, \$8.50 per 10, \$70.00 per 100.

Montmorency

SOUR VARIETIES

DYEHOUSE—Our earliest ripening variety. Plant it and you'll have your first cherry pie fully a week before your neighbors.

EARLY RICHMOND—A dependable variety that seldom misses a crop. Dark red, melting, juicy, sprightly, rich acid.

ENGLISH MORELLO—Blackish red, rich acid. Late ripening.

LARGE MONTMORENCY—The all year round cherry. A prime favorite the country over for canning for winter use. Large, firm, dark red, of most delicious flavor.

MAY DUKE—The flavor of this variety may be classed as half way between sweet and acid.

SWEET CHERRIES

BLACK TARTARIAN—A favorite everywhere. Very large, purplish-black, solid flesh. We consider this the best black sweet cherry.

GOVERNOR WOOD—Large, light red, juicy, rich, delicious.

WINDSOR—Large, liver-colored flesh, remarkably firm and good. Late ripening.

YELLOW SPANISH—Large yellow with red cheek. The most prolific bearer of all sweet varieties.

A good Cherry Orchard is one of the most profitable ventures a farmer can undertake. With but little care the trees are very thrifty and prolific—bearing large crops annually. The fruit is easily picked and is always in demand.

STANDARD PEAR TREES

Any soil that will make a good garden or produce good grain will make a favored spot to plant Pear Trees. A strong, rich loam is the best place for them, and their range of ripening is such that it is possible to have ripe Pears to eat from early August till late fall, and some varieties to lay in storage that will keep till late spring.

PRICES—Selected trees 5 to 7 feet high only 90 cents each.
\$8.50 per 10, \$75.00 per 100.

BARTLETT—The favorite eating and canning pear. Richly flavored and a heavy bearer. Summer.

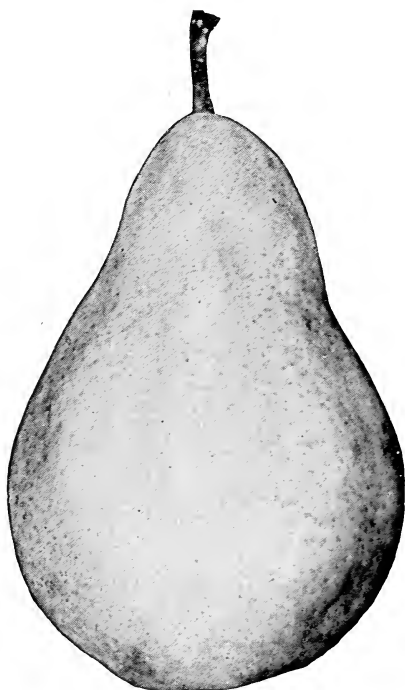

CLAPP'S—Large, yellow and dull red, with russet specks, melting, rich. Summer.

DUCHESS—Large, buttery, rich, juicy, excellent. Autumn.

FLEMISH BEAUTY—Large, juicy, rich. One of the hardiest and most popular. Autumn.

KIEFFER—Large, handsome, keeps remarkably well in storage. Autumn.

SECKEL—Rich yellowish brown when fully ripe. Flesh smooth grained, sweet. Fine for dessert and pickling.

Bartlett

DWARF PEAR TREES

If your space is limited plant Dwarf Pear trees. They can be set 10 feet apart. We can supply dwarf trees in Bartlett, Duchess and Seckel, in 4 to 5 foot 2 year trees at \$1.00 each.

QUALITY PLUM TREES

that will bear

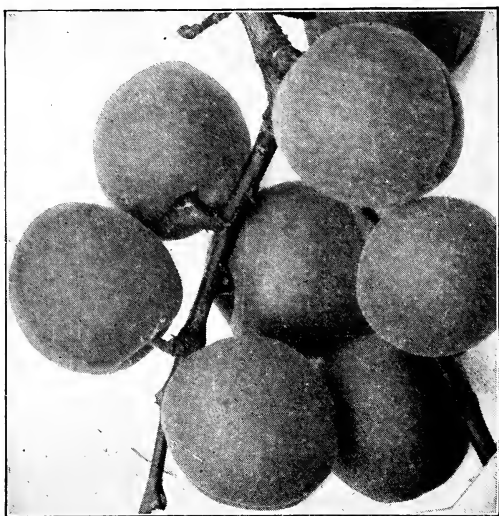

BANNER CROPS EACH YEAR

Prices of All Plum Trees

Unusually nice trees 5 to 7 feet high, only 80 cents each,
\$7.50 per 10, \$65.00 per 100.

ABUNDANCE—Amber color, very juicy and of excellent quality, large.

BURBANK—Cherry red, large, very profitable market variety.

GERMAN PRUNE—Large, dark purple. sweet, good One of the most popular for canning.

GREEN GAGE—Medium size, yellowish green. Its high quality of fruit makes it a standard by which others are judged.

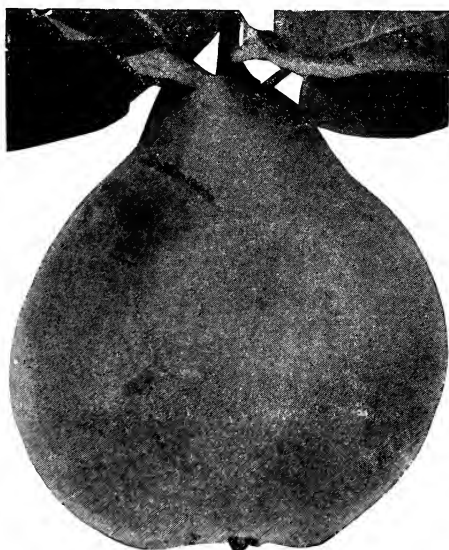

LOMBARD—Violet red. Flesh yellow, juicy, pleasant and good. Excellent for home use and market.

REINE CLAUDE—Yellowish-green; flesh pale green, juicy and rich. Best of dessert sorts.

SHIPPER'S PRIDE—Large, dark purple; fine, juicy and sweet. Often measures two inches in diameter.

SHROPSHIRE DAMSON—Medium size dark blue, very productive.

YELLOW EGG—Large yellow, egg shaped. Excellent for cooking.

Orange Quince

QUINCES

Are table joys that everybody should have. They make wonderful jellies, and if combined with other fruits they awaken delightful flavors that cannot be brought out in any other way.

Heavy trees, 4 to 5 feet high, \$1.00 each.

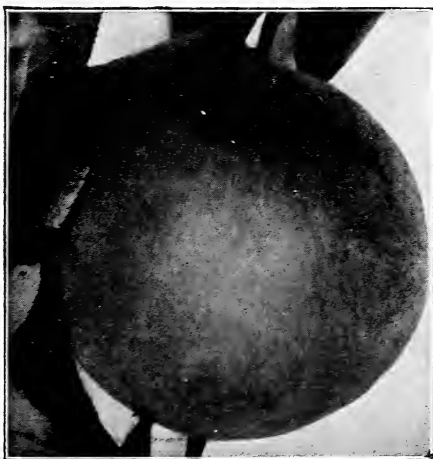

ORANGE—One of the best for cooking; a valuable, golden yellow Quince, widely planted; flesh firm, of good flavor Bears abundantly.

CHAMPION—A prolific and constant bearer, fruit averaging larger than the Orange, more oval in shape, quality equally fine, and a long keeper. Bears extremely young; finest eating and cooking varieties.

APRICOTS

Lucious, Mid-Summer Fruit, that ripens between Cherries and Peaches, and are adaptable to many and varied table uses.

Nice, well rooted trees, \$1.00 each.

The Apricot is a useful, delicious fruit, ripening between Cherries and Peaches. They should be planted on a northern or western exposure to prevent early blooming. Should have the same treatment for curculio as the Plum.

BARGAIN FRUIT COLLECTION

10 heavy, two year trees, for only \$7.39

THE IDEAL APPLE ORCHARD COLLECTION AND

THE MONEY SAVING PEACH COLLECTION
will make a splendid home orchard

GET GOOD STOCK

Buying poor trees just because they are cheap, is poor economy. You would not do this in buying your hogs, cattle or chickens; who do it with trees? There is usually something wrong when goods are sold below the market price but the buyer usually pays the bill. We must make expenses and a living profit, that's all we ask. Our prices are RIGHT.

We try more to satisfy and serve you than to get your money. The service we render, with our QUALITY STOCK, you will remember long after the PRICE is forgotten.

Concord Grape

GRAPES FOR THE HOME ARBOR

A few grape vines will furnish loads of food, nutritious and wholesome, and with a minimum of care, for even though neglected they will flourish and bear good crops. Plant them for eating off the vine, for delightful spreads and invigorating drinks.

PRICES OF ALL GRAPES

Strong, two year old vines, 25 cents each, \$2.25 per 10,
\$20.00 per 100.

AGAWAM—Large red berries, thick skin, sweet, aromatic. Long keeper after picking.

BRIGHTON—Produce large bunches of luscious red berries, is adaptable to almost any soil.

CATAWBA—Very late ripening red variety that is excellent for dessert.

CONCORD—The American Grape Juice variety. Eaten from the vine they are the most wholesome and the richest in sugar. No other variety approaches the Concord in delicately blended acids and aromatic flavors, so that the grape juice put up from them is especially good. Every bunch is completely filled with large, nearly black grapes. Do not leave them out of your planting.

DELAWARE—A favorite red dessert variety. Bunches small, very compact.

MOORE'S EARLY—Bunches of medium size, with large, round, black berries, heavily covered with bloom. Very early.

NIAGARA—Home and market growers agree that this is the most valuable of the white grapes. When ripe they are fine; pale yellow; thin bloom. Flesh is slightly pulpy, tender, sweet, delightful.

WORDEN—A week earlier than Concord, equally as good. Black.

DOWNING GOOSEBERRIES

Strong two year plants at only 25 cents each

CURRENTS

Thrifty two year old plants at 25 cents each.

CHERRY—Red.

WHITE GRAPE—White.

FAY'S PROLIFIC—Red.

WILDER—Large red.

Cumberland Raspberry

CHOICE RASPBERRY PLANTS

They will Produce Big Crops for You

The mere mention of Raspberries brings a vision of lusciousness that appeals to the taste of every one. Pies, Jellies, Sweet Juices, Preserves and what not. Every home should have a few of them, with the assurance that they will bear large crops of rich berries annually.

There is room in every garden for from 25 to 100 Raspberry bushes, which will furnish berries in abundance in the fruiting season for table use and also a surplus for putting up for winter.

If you want to make some quick profits, plant more than what your own needs will require and market them. At the high prices there is a big reward for the man who plants them.

Prices of the best plants we have ever offered, 25 plants, \$1.00; 100 plants, \$3.00; 1000 plants, \$25.00.

CARDINAL—Bears great loads of large purple berries of the finest quality.

CUTHBERT—Produces fine crops of large, conical, deep red berries that are sweet, rich, highly flavored and as beautiful as strawberries.

CUMBERLAND—Largest of all black caps. Coal black berries, very firm and quality of the very best; excellent shipper. Bush a strong grower, stocky and unusually prolific. Mid-season.

PLUM FARMER—A very profitable early variety. Jet black, thick meated and firm. In them nature stores up the elements that put pep, vigor and vim in all that eat them. They are naturally sweet and tempting in flavor.

PRIDE OF OHIO—Deep black, berry firm, sweet and very solid.

HEAVY YIELDING STRAWBERRY PLANTS

The home garden is the only place to get them where they ripen to their fullest perfection before you bring them to your table. We offer the two best varieties for both home and market.

PRICES

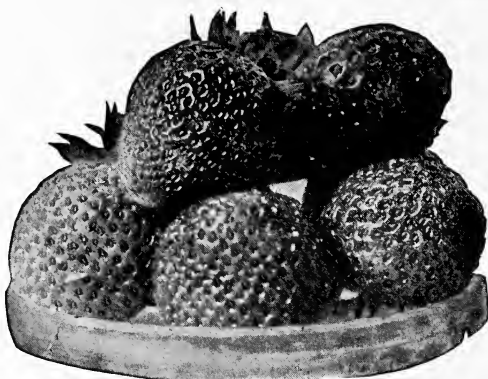

Thrifty, well rooted, freshly dug plants, \$1.25 per 100. \$8.50 per 1000.

TENNESSEE PROLIFIC

Our Best Strawberry

That Nature has Flavored Perfectly

Sweet, sun-ripened Tennessee Prolific strawberries picked right from your own garden reach your table at their best. A dish of them smothered in cream and sugar spell the last

Tennessee Prolific

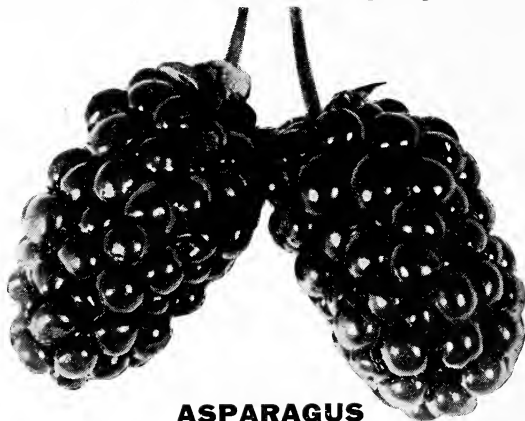

word in rich goodness. A good solid berry does not mush up when canned for winter use. No better berry for the market, as it holds up so well after picking.

DUNLAP—Rampant runner, plants should be restricted. Fruit good size, regular form, beautiful bright red, glossy, firm; splendid keeper and shipper.

ELDORADO BLACKBERRIES **THE BEST FOR EVERYBODY—EVERYWHERE**

\$1.00 per dozen, \$5.00 per 100.

Grow them in your own garden, where you can pick them as they reach their highest perfection. The berries are large, jet black, borne in large clusters. They are sweet, have no core and will keep well after picking.

ASPARAGUS

Every home with a garden, in the country or city, should have a good-sized bed of asparagus. Nothing is easier to plant or care for, and its being among the first fruits of the garden makes it a universal favorite. In a commercial way the supply is always inadequate and the price high. Plant in rows, setting the roots 18 inches apart. Spread the roots out and plant with crown 2 inches below the surface of the ground. Top-dress annually with well-rotted manure.

PRICES

25 plants, 75 cents; 100 plants, \$2.00.

CONOVER'S COLLOSAL—A standard variety for home or market.

PALMETTO—Fine quality, tender and highly flavored. Produces very heavy shoots.

RHUBARB **PIE PLANT**

15 cents each; \$1.00 per 10.

LINNAEUS—Large, early tender and fine. The old reliable pie kind.

Buddleia (Butterfly Bush)

HARDY ORNAMENTAL SHRUBS

A house may be built by using hard and fast rules in placing together the component parts as called for by the architect's blue print. When the carpenter and masons have completed their work we have a more or less complex structure called a house, which has received absolutely no personal or sentimental touches whatsoever. Such a place will protect anyone from the storms of winter or the hot sun of summer, but will anyone be satisfied with staying in it and not adding certain conveniences, furniture, floor coverings and pictures? Not many.

Now, should not the grounds receive the same attention to make them beautiful as the house itself? The furniture, carpets and pictures for the grounds come in the form of flowers, shrubbery and well kept lawns. Just as proper taste should be used in the selection and placing of adornments for the interior of the home, so the same taste must be used in the selection and placing of flower and shrubbery, so that beauty and harmony will be the result. It matters not whether the house is a simple cottage, or a magnificent structure, it still requires the personal touch to the outlying grounds to really convert that house into a home.

If you study our list of shrubbery closely you may easily select the shrubs that will suit your purpose exactly. You will find all growths, from dwarfs to tall, different colors of bark, all shades of every color in bloom. These will hide certain unsightly places and bring out at the same time a wealth of beauty in themselves. Convert your house into a home.

ALMONDS—Covered with beautiful double flowers in early spring before the leaves appear. 2 to 3 ft. plants in either PINK or WHITE flowering at 60 cents each.

ALTHEA—We offer Pink, Purple, Red and White flowering. August bloomers. Hibiscus-like flowers. 2 to 3 ft. plants in any color you select at 35 cents each.

BARBERRY THUNBERGI (Japan Barberry)—Dwarf growing, uniformly bushy, rounded in form. Equally desirable for foundation plantings and hedges. 15 to 18 inch plants at 25 cents each. \$18.00 per 100. 18 to 24 inch plants at 30 cents each, \$24.00 per 100.

BUDDLEIA (Butterfly Bush or Summer Lilac)—Rampant grower and bloomer. Lilac-like flower spikes 10 inches long, 3 inches in diameter. Color beautiful lavender. One plant will each year produce more flowers for cutting than you can buy for \$2.50. Price, heavy two year old plants 40 cents each, \$3.50 per 10. (Buy 100 plants per \$30.00 and sell the bloom to your local florist, who will be glad to get them at 5 cents each.)

CALYCANTHUS—The sweet scented shrub of grandmother's garden, 18 to 24 inch plants at 65 cents each.

Hydrangea Paniculata Grandiflora

CORNUS ELEGANTISSIMA—Leaves beautiful variegated green and white. Purplish red branches. 2 to 3 ft. plants 60 cents each.

CORNUS LUTEA—A striking yellow branched shrub. Very decorative in winter. 2 to 3 ft. plants, 35 cents each.

CORNUS SIBERICA—Blood red branches in winter. Clusters of fine white flowers in summer. 2 to 3 ft. plants 35 cents each.

CYDONIA JAPONICA (Japan Quince)—Completely covered with dazzling scarlet flowers in early spring. 18 to 24 inch plants 50 cents each.

BECHTEL'S FLOWERING CRAB—Small tree shrub covered with double pink rose-like flowers. 18 to 24 inch plants 50 cents each, 2 to 3 ft. plants 75 cents each, 3 to 4 ft. plants \$1.25 each.

DEUTZIA CRENATA—Tall growing, dainty bell shaped white flowers completely covering it in June. 2 to 3 ft. plants 40 cents each, 3 to 4 ft. plants 50 cents each.

DEUTZIA GRACILIS—Dwarf growing, its drooping branches wreathed with pure white flowers in May. 12 to 15 in. plants 45 cents each, 15 to 18 in. plants. 55 cents each.

DEUTZIA PRIDE OF ROCHESTER—Tall growing, double white flowers in May. 2 to 3 ft. plants, 40 cents each 3 to 4 ft. plants 50 cents each.

ELDER CUT LEAF—Fringed leaves, large white flowers, red fruit. 3 to 4 ft. plants, 50 cents each.

ELDER GOLDEN LEAF—Contrasts beautifully with other shrubs. 18 to 24 inch plants 35 cents, 2 to 3 ft. plants, 45 cents each.

FORSYTHIA FORTUNAE—Upright Golden Bell. Tall growing, brightens all plantings with its glinting masses of yellow flowers in early spring. 2 to 3 ft., plants 35 cents each, 3 to 4 ft. plants 45c each.

FORSYTHIA INTERMEDIA—Drooping Golden Bell. Often blooming before winter snows are gone. 2 to 3 feet 35 cents each, 3 to 4 feet 45 cents each.

HONEYSUCKLE BUSH—Pink flowering. 2 to 3 feet, 40 cents, 3 to 4 feet, 50 cents.

HONEYSUCKLE BUSH—White flowering. 2 to 3 feet, 40 cents, 3 to 4 feet 50 cents.

HYDRANGEA HILLS OF SNOW—Large round white flowers, foliage deep green. 18 to 24 inch 50 cents each, 2 to 3 feet 60 cents each.

PRUNING SHRUBBERY

Some shrubbery needs more pruning than others. They should all be trimmed enough to keep them shapely. Hydrangea should be cut back every Spring one-half of the last year's growth. Like Roses they produce their flowers on the new growth of wood. The Altheas can be pruned to suit your own fancy. Nearly all shrubbery grows gracefully, but sometimes slight pruning will be necessary to make them shapely.

- HYDRANGEA PANICULATA GRANDIFLORA**—August, plume-like white flowers that change to pink in September. 18 to 24 inch 40 cents, 2 to 3 feet 50 cents each.
- HYDRANGEA TREE FORM**—3 to 4 feet \$1.25 each.
- LILAC PURPLE**—2 to 3 feet 50 cents, 3 to 4 feet, 60 cents each.
- LILAC WHITE**—2 to 3 feet 50 cents each.
- LILAC PERSIAN PURPLE**—Upright slender branches, bright narrow leaves. Loose purple flowers. 2 to 3 feet 60 cents each.
- LILACS**—Named varieties as follows at \$1.25 each.
- BELLE DE NANCY**—Pink.
- LUDWIG SPAETHI**—Red.
- MADAME ABEL CHATNEY**—White.
- PRESIDENT GREVY**—Blue.
- PHILADELPHUS AUREA** (Golden Syringa)—The best golden leaved dwarf growing shrub. 15 to 18 inch plants 60 cents, 18 to 24 inch plants 75 cents each.
- PHILADELPHUS CORONARIUS** (Garland Syringa)—Tall growing, blooms in May, large white sweet scented. 2 to 3 ft. plants, 40 cents, 3 to 4 ft. plants, 50c each.
- PHILADELPHUS GRANDIFLORA**—Tall, very large white flowers in June. 2 to 3 ft. plants 40 cents, 3 to 4 ft. plants, 50 cents each.
- PHILADELPHUS VIRGINALIS**—A fine new variety. Moderately tall with good foliage and compact habit. Flowers are the largest, handsomest and most sweetly scented and longest blooming variety, 2 to 3 ft. plants, 75 cents each.
- PRUNUS PISSARDI**—Covered with showy purplish-red leaves. One or two in the border planting adds a distinct charm. 3 to 4 ft. plants 85 cents each.
- PRUNUS TRILOBA** (Double Flowering Plum)—Dwarf growing tree that is completely covered with very double light pink blossoms very early in spring. 2 to 3 ft. plants 75 cents each.
- SNOWBALL**—Tall growing, lovely white blooms. 2 to 3 ft. plants, 75 cents each.
- SNOWBERRY RED**—Fine for shady places. Red berries in fall. 2 to 3 ft. plants 35 cents each, 3 to 4 ft. plants, 45 cents each.
- SNOWBERRY WHITE**—Does fine in both shade and sun. Large white berries in August. 2 to 3 ft. plants, 40 cents each, 3 to 4 ft. plants, 50 cents each.
- SPIREA ANTHONY WATERER**—Dwarf, bushy, spreading type. Large clusters of brilliant rose-crimson flowers. 15 to 18 inch plants, 40 cents each, 18 to 24 in. plants, 50 cents each.
- SPIREA CALLOSA ALBA**—Growth same as Anthony Waterer, flowers white. 15 to 18 in. plants, 45c each.

Spirea Anthony Waterer

SPIREA BILLARDI—Dense spikes of rose-pink flowers. 2 to 3 ft. plants, 45 cents each.

SPIREA GOLDEN LEAF—Tall, bright yellow leaves, white flowers. 2 to 3 ft. plants 45 cents each, 3 to 4 ft. plants 55 cents each.

SPIREA THUNBERGI—Semi-dwarf, fluffy, willow-like charming green foliage; Often flowers in March. 18 to 24 inch plants, 45 cents each, 24 to 30 inch plants 55 cents each.

SPIREA VAN HOUTTE—The Spirea that everybody knows and loves. 2 to 3 ft. plants 40 cents, 3 to 4 ft. plants 50 cents each.

TAMARIX—Tall growing, feathery foliage, long slender racemes of pink flowers in early summer. 3 to 4 ft. plants 40 cents each.

VIBURNUM OPULUS (European Cranberry)—Handsome brilliant green foliage. Rich crimson berries in clusters. 2 to 3 ft. plants 65 cents each.

WEIGELA PINK FLOWERING—Tall growing deep pink flowers in great profusion in June. 2 to 3 ft. plants, 40 cents each, 3 to 4 ft. plants, 50 cents each.

WEIGELA RED FLOWERING—A most attractive variety. Flowers deep carmine rose. 2 to 3 ft. plants 60 cents each.

WEIGELA VARIEGATED LEAF—Dwarf. Leaves broadly variegated cream white. Flowers pink. 18 to 24 in. plants 50 cents each.

WILLOW PUSSY—Plant for winter bouquets. Their dainty silvery pink catkins unfold in early March. If branches are cut off and placed in a vase of water indoors they will unfold in February. 2 to 3 ft. plants, 40 cents each, 3 to 4 ft. plants, 50 cents each.

Weigela Rosea

Privet Hedge

HEDGES

For Beauty, Screens and Boundaries.

Fences made of plants that are covered with bright green foliage or bright berries are so much more pleasing than the still rigid effect obtained from wood or metal, and it will not rot down or rust out, but will increase in beauty and value year after year.

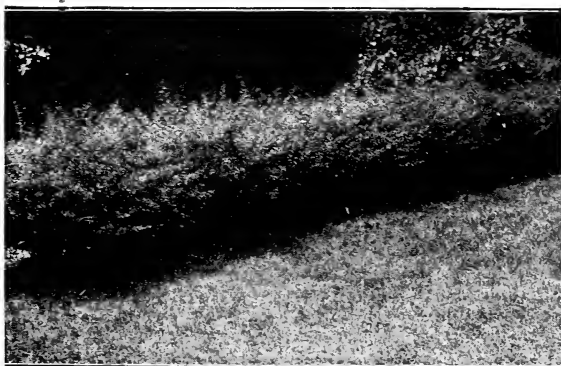

You may have 50 plants at 100 rate.

JAPANESE BARBERRY—The best low growing hedge. Fine for bordering walks and drives, or edging for shrubbery groups. Branches studded with crimson fruit in winter. 12 to 15 inches \$14.00 per 100, 15 to 18 inches \$18.00 per 100, 18 to 24 inches, \$24.00 per 100.

PRIVET AMOOR RIVER—Forms dense dark green upright hedge. Trims to any desired shape. 18 to 24 inches \$12.00 per 100, 2 to 3 feet \$15.00 per 100.

PRIVET CALIFORNIA—Is a quick growing dark shiny green. Handsomest of all hedges, but unfortunately occasionally freezes back to the ground. 18 to 24 inches \$6.50 per 100, 2 to 3 feet, \$8.50 per 100.

PRIVET IBOTA—We recommend this as the best hedge plant. Foliage a fine green. Makes a beautiful compact hedge. 18 to 24 inches \$13.00 per 100, 2 to 3 feet \$16.00 per 100.

Barberry Hedge

VINES

These are the outside draperies that give a finished look to what would otherwise be bare columns and walls.

BOSTON IVY—Clings firmly to the smoothest surface. 2 year plants 50 cents each.

BITTER SWEET—Glossy foliage and orange crimson fruit that clings all winter. 2 year plants 40 cents each.

CLEMATIS HENRYI—Large flowering white. \$1.00 each.

CLEMATIS JACKMANII—Large flowering violet purple. 2 year plants \$1.00 each.

CLEMATIS MAD. ED ANDRE—Large flowering, red. 2 year plants, \$1.00 each.

CLEMATIS PANICULATA—Small white fragrant flowers, borne in clusters in profusion in September, followed by silvery, feathery seed pods, which make a very attractive appearance. Fine for porch shade. 2 year plants, 50 cents each.

HONEYSUCKLE—Fine for shading porches and for covering fences or steep banks. 2 year plants, 35 cents each.

Honeysuckle Vine

WE WILL HELP YOU CHOOSE

Tell us what you would like to plant and we will tell you the best varieties to order.

Many of our customers plant the home grounds but are in doubt as to the best varieties to use. There may be something about the climate or the soil that demands consideration. It is our business to know what, where, when and how to plant every variety of tree, shrub, vine or plant we catalogue, and this knowledge is always at the service of our friends. We are always glad to answer questions.

Our prices are as low as is consistent with our policy of quality stock, carefully grown, with ample room for development. It should not be compared with poorly grown material. Fancy varieties at fancy prices nearly always bring disappointment to the planter.

You can buy no better any where at any price.

Will the members of this home please look over this Catalog, and while doing so have in mind that it represents the BEST qualities, and we sell many things for LESS than is usually asked.

SHADE TREES

It is the duty of every land and home owner to plant trees. You increase the value of your home; they keep off the intense heat of the summer, and they afford a cool spot for the children to play. Shade in summer is almost essential, but care in planting should be used so that the open spaces are left for the admission of breezes.

ASH AMERICAN WHITE—Rapid pyramidal grower. Glossy leaves. 8 to 10 feet, \$1.00; 10 to 12 feet, \$1.25.

BIRCH CUT LEAF WEEPING—Of graceful drooping habit, silvery white bark. 5 to 6 feet, \$3.00.

CATALPA BUNGEI—Umbrella shape. Glossy heart-shaped leaves. 5 ft. stems, \$2.00.

ELM AMERICAN—One of our noblest trees. 8 to 10 feet, \$1.75.

MAPLE ASH LEAF—Rapid growing, spreading head. 8 to 10 feet, \$1.00; 10 to 12 feet, \$1.50.

MAPLE NORWAY—Most desirable street tree. 8 to 10 feet, \$3.50; 10 to 12 feet, \$4.00.

MAPLE SILVER—Valuable for quick shade. 8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00.

MOUNTAIN ASH—European. Beautiful fern-like foliage, orange red berries from July until winter. 6 to 8 feet, \$1.50.

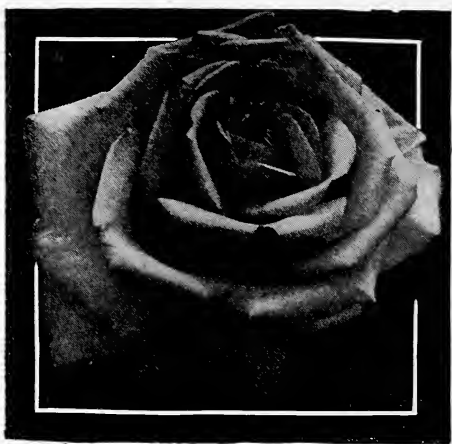

POPLAR LOMBARDY—Tall slender growth adaptable for screening out unsightly views. 6 to 8 feet, 75 cents; 8 to 10 feet, \$1.00; 10 to 12 feet, \$1.25.

SYCAMORE—Lofty wide-spreading tree. 8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00.

OWN A GRAPE ARBOR

There is scarcely a country or city yard or garden so small that space cannot be found to plant from one to a dozen or more Grape Vines. When once planted they will last a life-time, with very little care, and bear freely of the healthiest, most delicious, most profitable and most satisfactory fruit.

We don't sell all the nursery stock, but we do sell the best.

ROSES

Generous in bloom and of the richest shades. They offer the quickest reward to the planter, because only a few short weeks after planting many of them begin blooming and continue through the summer.

All of our roses are two year old field grown plants.

We offer the following choice bush type varieties at 75 cents each, \$6.50 per 10.

COLUMBIA—Beautiful true pink, deepening as it matures to glowing pink. Large.

FRAU KARL DRUSCHKI—The best snow white rose. Flowers are immense in size and produced with great freedom.

GEORGE ARENDS—Its delicate pink color is unapproachable. Large and deliciously fragrant.

GENERAL JACQUEMINOT—Crimson-scarlet. Large, full, very fragrant.

GRUSS AN TEPLITZ—Bright crimson, fiery-red center; cup shaped; semi-double, flowers in clusters.

J. L. MOCK—Large, perfectly formed, clear, imperial-pink, blooms carried on stiff erect stems.

K. A. VICTORIA—Pure white, with shadings of primrose yellow.

LOS ANGELES—Lovely buds and exquisite flowers of salmon pink and yellow shading; very sweetly perfumed.

MADAME BUTTERFLY—A symphony of white, bright apricot and gold.

MADAME CAROLINE TESTOUT—Clear, bright, satiny-pink; large and extremely showy.

MRS. JOHN LAING—Soft, clear pink. Very generous bloomer.

PAUL NEYRON—Deep rose, flowers of immense size, borne on smooth thornless stems.

RADIANCE—Brilliant rose-pink buds opening to well formed shining flowers with lighter tints on the reverse of the petals. Globular in shape and very fragrant.

RED RADIANCE—Big, globular flowers of deep red on strong stems. Very free bloomer.

SENSATION—Buds long-pointed, expanded flowers very double, large, lasting. Scarlet-crimson.

SOUVENIR de CLAUDIUS PERNET—Best yellow rose. Vigorous, erect grower.

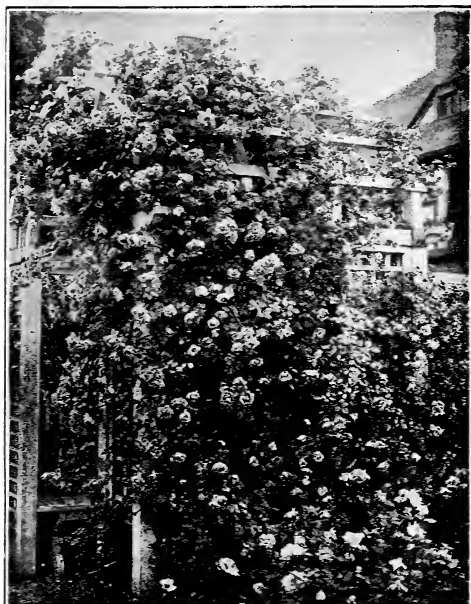

ULRICH BRUNNER—Brilliant cherry red.

THE BEST CLIMBING ROSES

Heavy, well developed, two year plants, 65 cents each, \$6.00 per 10.

AMERICAN BEAUTY—Deep pink double flowers. Healthy, perfect foliaged, strong grower.

AMERICAN PILLAR—Brilliant carmine-rose, with distinct cream variegation and yellow stamens.

Doctor Van Fleet

CRIMSON RAMBLER—Bright crimson flowers produced in large clusters of pyramidal form.

DOCTOR VAN FLEET—Clusters of delicate flesh pink. You will be delighted with this rose.

DOROTHY PERKINS—Delicate shell-pink small double flowers in clusters. Excellent climber.

GOLD FINCH—Rich lemon yellow, semi-double flowers in full clusters. Generous in growth and bloom.

PAUL'S SCARLET—Vivid scarlet, shaded crimson, makes a brilliant display for long period of time. We consider this one of the finest climbers.

SILVER MOON—Flowers very large, pure white, clematis shaped, yellow stamens at center.

HARDY PHLOX

Of the hardy flowering plants none is more easily grown than Phlox, nor are there any that are more profuse bloomers. They begin blooming about the first of July and continue their brilliant display throughout the rest of the summer months.

Our varieties include every desirable color.

Price of all varieties, 15 cents each, \$1.25 per 10.

ATHIS—Salmon Pink.

BERANGER—Flesh Pink.

COQUILICOT—Fiery Red.

ECLAIREUR—Red.

FRED CARTER—Purplish Red.

INDEPENDENCE—White.

LA VOGUE—Silvery Rose.

MRS. JENKINS—White.

MRS. CHAS. DORR—Blue Mauve.

MADAME BENZANSON—Scarlet.

PRIME MINISTER—White, Red center.

THOR—Salmon Pink.

WILLIAM RAMSEY—Purple.

HARDY PERENNIAL GARDEN PLANTS

Most kinds are more safely planted in the Spring. We grow the largest stock of the most desirable kinds.

HARDY PERENNIAL PLANTS

THAT REQUIRE VERY LITTLE CARE AND BLOOM
YEAR AFTER YEAR

Prices of all Perennials

15 cents each, 3 of one variety for 40 cents; 10 of one variety for \$1.20; 100 plants, using as many varieties as you wish, for \$10.00.

A well arranged selection of our Hardy Perennials will produce a continuous succession of choice flowers, keeping your garden bright throughout the entire growing season. Not only are they pleasing lawn decorations, but also will provide the home with a constant supply of cut flowers.

Our Hardy Perennial plants are heavy field grown stock, that will bloom the first season after planting, and will re-appear each year, blooming more profusely with age.

Note we give approximate height.

ANCHUSA ITALICA—48 inches. Blue, all summer.

AQUILEGIA CHRYSANTHA (Columbine)—36 inches. Yellow, Spring.

AQUILEGIA LONGSPUR HYBRIDS—36 inches, all colors, Spring.

- VERONICA**—A good border plant. Flowers of Indigo Blue borne on thick spikes in July.
- YUCCA FILAMENTOSA**—Broad sword-like evergreen foliage. Mid-summer showy flowers of white borne on 3 ft. stems.

EVERGREENS

Beautiful The Whole Year Through

Our Evergreens are handsome specimens that will transplant successfully.

They will add a distinction to your home, a beauty that never rusts, but is always changing. Exposure to rain, snow cold and heat, the natural foes of all the building of mankind, produce new beauties instead of decay. Rain makes them grow. Snow emphasizes the many rich color effects in winter. Cold changes their colors to darker greens, blues and bronzes. Heat produces growth, vigor and changing colors in summer.

ARBORVITAE AMERICAN—Erect, pyramidal habit with soft bright green foliage. 2 to 3 feet, \$2.50 each.

ARBORVITAE DOUGLAS GOLDEN—One of the hardiest of golden evergreens. Bushy growth. Fine for color contrasting effects. 2 to 3 feet, \$3.50 each.

ARBORVITAE HOVEYI—Dwarf, elliptical, compact. Foliage light green with slight golden tinge. 15 to 18 inches, \$2.00 each.

ARBORVITAE PYRAMIDALIS—Forms tall slender column of densely branched dark green foliage. 3 to 3½ feet, \$4.50 each.

ARBORVITAE PUMILA—Handsome dwarf, dense perfect green. 12 to 15 inches, \$1.25 each.

ARBORVITAE WARREANA—Low pyramidal form. Stiff branches of dark green foliage. 12 to 15 inches, \$1.25.

ARBORVITAE WOODWARDI—The best globe shaped evergreen. Deep green foliage. 10 to 12 inches, \$1.50 each.

RETINOSPORA PISIFERA—Upright growth. Foliage feathery, light green, glaucous underneath. 2 to 3 feet, \$2.50 each.
